

Closing Remarks

Safripol Sustainability Conference 2022

Avashnee Chetty

Safripol

Which side are you on?

**YOU'RE EITHER PART
OF THE SOLUTION
OR YOU'RE PART OF
THE PROBLEM.**

A quick recap on some of the main themes:

- **Circular economy** (Reduce, reuse, recycle)
- The CE presents the single biggest opportunity for the plastic industry. By putting plastics back into the value chain, we attach value to plastics, increase collection, prevent leakage, pollution, reduce our dependency on virgin fossil resources, and increase economic activity while positively impacting society.
- Design, technology and innovation
- Legislation is an enabler
- Collections: While plastic pollution is a global problem, we need local solutions
- Evidence based decision and policy making – LCA studies
- Climate change and carbon footprint
- Collaboration: Proper collaboration throughout the whole value chain to change the system

Vote of Thanks

- Inspiring host Michael Avery
- Diverse line-up of amazing speakers
- Wolves & the production team
- Hilton Management and staff
- Suppliers
- Gert Claasen and Jessica Chetty
- Safripol's Leadership team and staff
- All our delegates!!

The time for action is now

SAFRIPOL SUSTAINABILITY CONFERENCE 2022

**Thank You and It's been an
absolute honour for safripol to
host you!!!**
